

- **Car Park Waste Encapsulation Project. 8 Minutes. Producer, Director, Researcher, Author, Narrator.** 8 Minutes. Industrial Film about how contaminated soil was remediated using Directly-heated Thermal Desorption.
- **The History of Botany Bay. 120 Minutes. Producer, Director, Researcher, Author, Narrator.** Feature length educational, historical and biographical documentary on the history of the development of Botany Bay from pre Cook to present day.
- **How to Process Scrap Metal on Your Island.** 25 minutes. Producer/Director/Author/Narrator

Demonstrates how to sort, process and containerise different categories of scrap metal in preparation for exportation to a recycler, covering metal processing equipment and occupational health and safety.
- **Niue Scrap Metal Pilot.** 29 minutes. Producer/Director/Author/Narrator

How the island of Niue removed its scrap metal in one big all island effort so as to illustrate that removing all types of scrap metal from small islands is feasible.
- **How to Process Plastic on Your Island.** 31 minutes. Producer/Director/Author/Narrator

Funded by the French Development Agency, the Pacific Fund and the Tahitian Waste Management Department, this 52 minute video continues in the “how to” vein, and demonstrates how to sort, process and containerize different categories of plastic for exportation to a recycler. It covers plastic processing equipment and occupational health and safety.
- **Easter Island, Water Sanitation and Supply.** 8.10 minuts. Producer/Director/Author/Narrator

This 30 minute video concerns the delivery of composting toilets to Easter Island while highlighting the issues of waste water management there.
- **Easter Island, Waste Management.** 60 minutes. Producer/Director/Author/Narrator

Looks at waste management problems on Easter Island and documents the training and assistance provided by the Tahitian Waste Management Department and Pacific Aid Australia to the Municipality of Easter Island
- **Easter Island, On the Road to Development.** 34 minutes. Producer/Director/Author/Narrator

This slow paced dialogue-free documentary illustrates Easter Island and the sustainability pressures it currently faces.
- **Compostable Baby Nappies in the Pacific.** 11 Minutes. Producer/Director/Author/Narrator

This short promotional video shows the public consultation process of a trial in three Pacific Islands of compostable baby nappies.

- **Tuvalu: Plastic Shopping Bag Free Program.** 35 minutes. Producer/Director/Author/Narrator

Documents the strategic implementation of the Tuvalu Plastic Shopping Bag Free Program. It covers community consultation, distribution of the bags, sustainability issues and the use of media to get the message to, and enlist the participation of, the Tuvaluan community.

- **Death of the Soviet Amazon.** 52 minutes. Producer/Director/Author/Narrator

This 52 minute documentary centres on the conflict between the indigenous people of Siberia and the exploitation of the second largest oil and gas fields in the world.

- **Le Silence des Nentsi.** 20minutes Producer/Director/Author/Narrator

This 20 minute video centers on a nomadic family in the Arctic Circle and their quest for clean water and uncontaminated fishing spots in a fragile tundra steadily being destroyed by gas exploration.

- **Detlina Chok.** 52 minutes. Producer/Director/Author/Narrator

This 16 mm film documents the life of a 19 year old Nenets young man, torn between carrying on the tradition of fishing, hunting and deer husbandry, or migrating to the nearest industrial town where he would most likely end up in low paid unskilled labor but where his fiancée, not willing to be a deer herders wife, wanted to move. The film documents the demise of traditional nomadic units on the tundra in the face of ecological destruction. "Detlina Chok: 20 Years Later" is currently under pre production with the objective of finding the original community followed in Detlina Chok and verifying if predictions made 20 years ago came true.

- **The Sydney Aboriginal and Oceanic Fair.** 52 Minutes. Producer/Director/Author/Narrator

Looks at a trade fair and public exposition aimed at promoting arts and crafts of the Aboriginal and Oceanic community with the objective of enhancing economic sustainability.
